## "NO STUFFING" DISCOUNT

For maximum convenience, Haan Crafts provides white economy stuffing for all stuffed animals and pillows. However, if you do not want the stuffing, we will gladly withhold it from your order and give you a discount, upon request. You can withhold stuffing entirely, or just from certain kits. Consult the Order Blank to find the Stuffing size and discount amount for each kit.

**Example:** If you order 50 pillows that normally come with a Size #16 Stuffing but tell us that you don't need any stuffing sent, we will deduct \$50.00 (50 x \$1.00) from your order total!

Stuffing Size	Discount per bag withheld
Size #1	\$0.15
Size #2	\$0.40
Size #4	\$0.40
Size #6	\$0.50
Size #11	\$0.75
Size #16	\$1.00
Size #20	\$1.25
Size #30	\$1.75
Size #48	\$2.75

Receiving this discount is simple: When you place your order, just tell us either "NO STUFFING" or "1/2 STUFFING ONLY" (or give us clear, specific instructions on which stuffings you do and do not want), and we will discount your final total accordingly. We hope this option proves beneficial to you, and gives you more flexibility in how you use our kits in your classroom!

See page OB-24 in this order blank for more information.

## Haan Crafts Skill Level Rating System

We use an easy-to-follow system to rate our sewing kits for difficulty. The system uses a NUMBER to indicate the difficulty of the individual steps, followed by a LETTER to indicate the amount of sewn pieces used to complete the project. We hope that this will help you better determine which kits are appropriate for your students' skill levels, as well as the amount of class time allocated for sewing.

**NUMBER =  
Difficulty  
Level**

**LETTER =  
How Many Sewn  
Pieces**

1. Simple
2. Easy
3. Average
4. Moderate

- A. 1-2 pieces
- B. 3-5 pieces
- C. 6-10 pieces
- D. 11-19 pieces
- E. 20 or more pieces

By this measurement, a kit rated 1-A would be the easiest project with the fewest pieces. A kit rated 4-E would be the most challenging project with the most pieces. Ratings are subjective, because some people find stuffed animals easier to construct than garments (or vice versa). Following are the criteria for the skills taken into account when devising this rating system.

### NUMBER = Difficulty Level

#### 1 Simple

A good first project for elementary students. Includes simple shapes and flat construction (the pieces have the same shape so they lie flat during construction). With Haan Crafts kits, the major pieces are pre-cut or pre-printed. To-Sew kits include paper patterns or instructions for measuring and cutting. Stuffed projects are easy to turn right side out. The project may include turned and finished edges, and/or a casing for a drawstring.

#### 2 Easy

A good project for beginners. Includes simple shapes and mostly flat construction, although there may be some darts. Stuffed projects are easy to turn right side out. The project may include any Level 1 skills; a casing for a drawstring or waistband; and/or applying more complex appliqué letters or shapes to the surface of the project.

#### 3 Average

A good project for average middle school students. Includes more complex shapes, but no tight or difficult areas. The project may include any Level 1 or 2 skills; more precise matching of seams; a zipper; gathers; and/or inset pieces, such as paws or cuffs.

#### 4 Moderate

A good project for high school students, or above-average or experienced middle school students. Includes more complex shapes. The project may include any Level 1, 2 or 3 skills; piping; one or more tight or difficult areas; and/or challenging sculpting.

### LETTER = How Many Sewn Pieces

This indicates the number of pieces (including appliqués and accents) that need to be sewn to complete the kit. It does not include trims such as eyes, washers, webbing and ribbons. The higher the letter, the more sewn pieces are involved in the kit, as follows:

- A – 1 or 2 pieces
- B – 3 to 5 pieces
- C – 6 to 10 pieces
- D – 11 to 19 pieces
- E – 20 or more pieces

In addition to the rating system, please read the item descriptions to determine if the item is pre-cut, pre-printed or paper pattern. Pre-cut kits are very quick and easy to make. Pre-printed kits assure accuracy and are quicker to construct than paper pattern kits, which are a little more time-consuming and provide the experience of working with paper patterns.

### Service to Make You Smile

At Haan Crafts, we realize that teachers have one of the most difficult jobs around, and we do whatever it takes to make your job easier. Although we offer the widest variety, the biggest array of different products and fabrics, and the best patterns and instructions, our unparalleled customer service is what really sets us apart from the rest. Here are some of the advantages of ordering from us:

- Toll-free phone and fax numbers may be used for any reason, not just for placing orders; use them any time you need to contact us
- Orders can be submitted via phone, fax, mail, e-mail, or on our web site, whichever is the most convenient method for you
- Free shipping and handling on any school orders of \$100 or more
- Free replacement of lost or damaged parts, because we realize that it's easy for pieces to be misplaced, cut wrong, or otherwise ruined amid the hectic pace of the classroom
- Free envelopes with mini order blanks so students can turn in their individual orders without taking valuable class time
- Free student labels on each kit identify the class period and initials of the student, for faster and easier distribution of the projects when they arrive
- Large Order Discount program automatically rewards customers placing orders of \$300 or more with an instant 5% discount
- "No Stuffing" Discount program gives you the option of saving money by withholding stuffing from your order
- Your phone call will be answered by a friendly, well-trained customer service representative who will make your transaction pleasant, not an automated system that makes you listen to a long list of menu options
